## PICOCOOL 5254

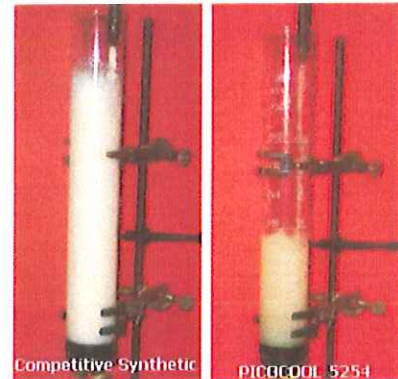

### Synthetic Coolant for Machining and Grinding

PICOCOOL 5254 is a high-performance, value-enhanced synthetic coolant designed particularly for machining and grinding aluminum, stainless, titanium, cast, and other sensitive alloys and composite materials.

PICOCOOL 5254 is highly recommended for grinding applications using diamond and CBN (cubic boron nitride) wheels.

### PICOCOOL 5254 HIGHLIGHTS

- Biostable
- Non-tacky
- Recyclable
- Multi-metal safe
- Extends tool life
- Rejects tramp oils
- Petroleum and oil free
- Compatible in all waters
- Environmentally compliant
- Minimizes coolant drag-out
- Non-foaming under pressure
- Excellent corrosion protection
- No "Monday morning stink" odor
- Clear, clean, cool running formulation
- Excellent lubricity without chlorine or sulfur
- Non-staining to ferrous and non-ferrous metals
- Operator friendly and balanced for long sump life
- No harmful biocides or chemical sump side additives needed
- Excellent cooling and surface penetration of tooling and metal interfaces

PICO solutions help improve productivity, quality, safety, and environmental compliance.

PICO Chemical Corporation is an ISO 9001:2008 certified manufacturer of value-enhanced, specialty chemicals and lubricants to clean, condition, lubricate and protect metalworking processes since 1976.
