## PICO CE DEICER HDT

### Heavy-duty Deicing / Anti-icing Compound

An environmentally friendly and safe-to-use deicing and anti-icing compound with "stay put" technology to dissolve and prevent snow and ice build-up during freezing conditions in a wide variety of applications.

Highly recommended for use on conveyor belts, railroad switches, slide plates, rails, etc.

"Stay put" technology prevents run-off to allow application on inclined, vertical and horizontal surfaces and effective to -32°F (-36°C).

Contains lubricity additives to assist in continuous operation, and corrosion and scale inhibitors to protect surfaces from moisture causing rust and wear.

Penetrating, non-evaporating, fast-acting, adhering film is non-hazardous, non-corrosive, non-flammable, non-conductive, and biodegradable.

Does not require or produce heat and is safe on all metal, plastic, and painted surfaces.

Does not contain calcium chloride or other corrosive ingredients.

#### USE ON

- Conveyors, rollers, pulleys, idlers, cables
- Railroad switches, plates, tracks, couplers
- Pipes, valves, chains
- Scales, crane rails, flanges

#### PRODUCT FEATURES

- Fast acting
- Safe handling
- Low temperature use
- Non-drying protective film
- Environmentally friendly / biodegradable
- Safe on electrical / mechanical components
- Safe on all metals / plastic / painted surfaces
- Non-corrosive / non-hazardous / non-flammable

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value since 1976.
