

SEASONAL RUST ALERT

Seasonal weather changes are just a few of the most obvious reasons to protect metal parts and equipment from rust and corrosion year round for manufacturers and metal service centers.

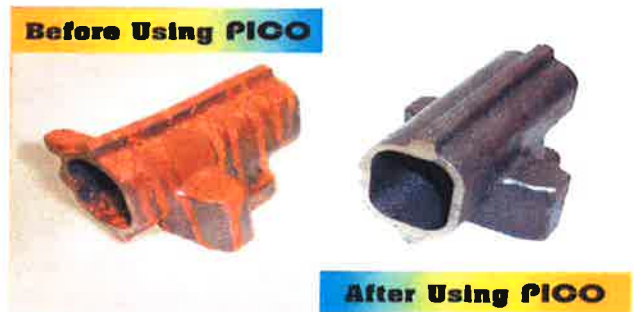

Cool mornings and warm daytime hours often lead to unwanted and uncontrolled moisture and condensation, causing rust problems on parts in plant production, inventory storage, shipping, and delivery.

PICOGUARD rust preventives reduce and eliminate costly rejects, downgrading, reworking, or scrapping valuable steel parts and inventory.

PICOGUARD rust preventives help increase productivity, sales, profitability, and customer confidence for companies.

PICOGUARD Features and Benefits:

- Non-staining
- Water rejection
- All metals protection
- Indoor and outdoor use
- Economical and reliable
- Environmentally compliant
- Short to long-term protection
- Improved surface appearance
- Available in solvent, oil, water, and eco-based technologies

Prevent rust problems and more by reaching out to PICO for our help.

PICO Chemical Corporation an ISO certified manufacturer of environmentally responsible specialty chemicals and lubricants that clean, condition, lubricate, protect, and provide value to the metalworking, metal service center, and related metal processing industries since 1976.

PICO also offers rust and scale removers, water and plasma cutting table fluids/conditioners, welding/anti-spatter fluids, saw cutting fluids, machining fluids, and cleaners.
