

## **PICODRAW**

### **TUBE FORMING / DRAWING / STAMPING FLUIDS**

**PICODRAW forming / drawing / stamping fluids are foremost in technology and highly recommended for their quality, performance-proven effectiveness, and efficiency.**

**PICODRAW fluids help lower use consumption, improve safety and handling, and are environmentally compliant.**

**PICODRAW fluids are performance-proven, eco-friendly, cost effective and safe-to-use single source products.**

**PICODRAW 4030 Gel:** A high-performance "oil-free" synthetic gel, tube bending and forming fluid for use on ferrous and non-ferrous metals.

**PICODRAW 4030:** A multi-purpose "oil-free" synthetic forming, drawing, stamping fluid for use on ferrous and non-ferrous.

**PICODRAW 4030 HD:** A heavy duty, multipurpose, "oil-free" fully synthetic forming, drawing, stamping fluid for use on ferrous and non-ferrous metals.

**PICODRAW 4030 R:** An "oil-free" synthetic tube bending and forming fluid use on ferrous, non-ferrous, copper, and brass metals.

**PICODRAW 4010:** A multipurpose "oil-free" synthetic forming, drawing, stamping fluid for use on aerospace, ferrous and non-ferrous metals.

**PICODRAW 4042:** A unique multi-purpose "oil-free" synthetic fluid for drawing, stamping and forming aluminum, carbon, stainless and other alloys.

**PICODRAW 4044 Gel:** An "oil-free" synthetic tube bending and forming fluid for use on ferrous and non-ferrous metals. Chlorine free.

**PICODRAW 4068:** A multipurpose, heavy-duty, chlorine-free, oil-based forming, drawing, stamping fluid for use on ferrous, non-ferrous, and aerospace metals.

**PICODRAW 4069:** A multipurpose, chlorine-free, midrange viscosity, oil-based forming, drawing, stamping fluid for use on ferrous, non-ferrous, and aerospace metals.

**All mentioned products are operator friendly and help eliminate excess product waste, labor, and housekeeping burdens on and around equipment, parts, floors and clean off easily with water or recommended PICO cleaner.**

**PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect and provide value for steel making, metalworking, metal finishing, metal processing, metal fabrication, and their related applications since 1976.**
