

PICOCLEAN 5010

Multipurpose Spray / Immersion Aqueous Cleaner

A multipurpose, environmentally friendly, and safe-to-use liquid cleaner for ferrous and non-ferrous metals.

Heavy-duty effectiveness quickly removes a wide variety of oils (machine, quench, rolling, rust prevention, etc.), coolants, buffing compounds, drawing / stamping lubricants, etc., from all metals by spray or immersion.

Additives exhibit excellent cleanability, high detergency and low foam at low operating temperatures for economically effective and total cleanliness.

Provides a maximum tank life by "splitting out" (separating and floating) oils and lubricants upon cleaning for their easy removal and disposal.

Offers excellent corrosion protection, is non-staining, and compatible in all water types.

Is non-VOC.

- Excellent corrosion protection
- Effective cleaning in all types of water
- Low temperature, economical cleaning
- "Splits out" oils for maximum tank life efficiency
- Will not stain or attack sensitive metals or alloys
- Outstanding detergency and metal wetting properties

For use in

- Machine sumps
- Multiple stage spray washers
- Continuous coil cleaning lines
- Small parts cleaning in tank washers

Dilute with water from 2% to 50%, in temperature ranges from room to 165°F (74°C), depending on type of soil, application, temperature, exposure time, and severity of cleaning.

Available in pails, drums, totes, and bulk containers.

PICO solutions help improve productivity, performance, quality, and environmental compliance.

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value for steel making, metalworking, metal finishing, metal processing, metal fabrication, and their related industrial applications worldwide since 1976.
