

PICOCLEAN 5022

Metal Fastener Cleaner

Formulated to provide a bright "nickel" finish on metal fasteners.

A one-step water-based cleaner designed for cleaning extrusion and machine oils, drawing compounds, etc., from metal fasteners and related ferrous metals in tumblers, tunnel, rotary spray washer, and other cleaning system applications.

Offers excellent cleaning, reduced cleaning times, low operating temperature, low foam, low concentration use, oil rejection, long tank life, and performance in one product.

Improves usable tank time and cleaning performance to reduce maintenance downtime of systems and helps eliminate many post-process procedures.

Before using PICOCLEAN 5022

After using PICOCLEAN 5022

PRODUCT FEATURES

- Oil rejection
- Excellent cleanability
- Low concentration use
- Optimum tank life
- Low temperature operation
- Light to heavy-duty cleaning

RECOMMENDED DILUTIONS

2 to 10% (1:50-1:10) of total volume at temperatures between 120°–180°F (49°–82°C).

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value for steel making, metalworking, metal finishing, metal processing, metal fabrication, and their related industrial applications worldwide since 1976.
