

PICOEXTRUD Series

Extrusion / Cold Heading Lubricants for All Metals Use

PICOEXTRUD industry-proven, clean-running, premium-quality lubricants offer outstanding lubricity and performance; extended tool, die, machine and use life; reduced product consumption and consolidation. In addition, they offer high-temperature stability for reduced smoke / fire concerns; reduced friction and heat deformation; rust and stain protection; eliminate tackiness; improved part and machine cleanliness, environmental compliance, and overall cost efficiencies.

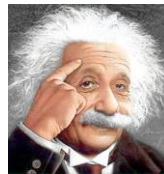

PICOEXTRUD lubricants offer a dual-function application to perform both as the primary extrusion / cold heading lubricant and also the machine and gear lubricant.

Cold heading / thread rolling / cutting / forming / nut tapping / machine lubricants and cleaners

Also for use in forward, backward and upset extrusion processes

"IT'S ALL RELATIVE!"

Are you getting the "significance of performance, quality, operating efficiency, results, and ROI" you expect from your present extrusion and cold heading lubricants and/or cleaners?

The inherent value of a product is the overall performance and results received for the price you pay.

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value for the metalworking, fastener, ammunition, arms, and firearms industries and their related applications since 1976.
