

PICOCLEAN 5028 A

Heavy-duty Metal Fastener Cleaner

Specially formulated to de-phos metal fastener surfaces and provide a bright "nickel" finish.

A one-step water-based metal fastener cleaner designed to remove a wide variety of extrusion and machine oils, drawing compounds, molybdenum disulfide, and phos coatings in tumblers, tunnel, rotary spray washer, and other cleaning system applications.

Offers excellent cleaning, reduced cleaning times, low operating temperature, low foam, low concentration use, oil rejection, long tank life and performance in one product.

Improves usable tank time and cleaning performance to reduce maintenance downtime of systems and helps eliminate many post-process procedures.

Before using PICOCLEAN 5028 A

After using PICOCLEAN 5028 A

PRODUCT FEATURES

- De-phoses
- Low foam generation
- Excellent oil rejection
- Optimum tank life
- Excellent cleanability
- Low concentration use
- Low temperature operation
- Light to heavy-duty cleaning
- Economical – low end use cost

RECOMMENDED DILUTIONS

2 to 10% (1:50-1:10) of total volume at temperatures between 120°–180°F (49°–82°C).

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value for steel making, metalworking, metal finishing, metal processing, metal fabrication, and their related industrial applications worldwide since 1976.
